SURFADOL 541

Product Name: Surfadol 541
CAS#: 126-86-3
Content: TMDD 98%min.

Chongqing Acme Tech Corporation is an established manufacturer of nonionic surfactants located in Chongqing City, Southwest China's industrial hub. Surfadol 541 Acetylenic Diol Surfactant Series offers multifunctional benefits; both wetting and foam control in aqueous systems. Due to its hydrophobic nature, the product has reduced water sensitivity and controlled foaming when compared to conventional surfactants. It is a nonionic surfactant widely used as an additive in various types of paints, coatings, and inks. Surfadol 541 Surfactant is a solid in its pure form. It is also offered cut in various solvents. These solutions are predominantly used due to their ease of handling and are available as follows:
